

THE CLAY CITY TIMES.

\$1.00 a Year in Advance.

We are here to help Clay City, the Surrounding Country and Ourselves.

J. E. Burgher, Publisher.

VOL. XVIII.

CLAY CITY, KY., THURSDAY, JANUARY 16, 1913.

NO. 3

Another Killing in Clark County.

Merchant Tom Berryman, of Trapp, Clark county, was shot and killed at a dance at the home of his cousin, Sam Berryman, Friday night by a sixteen-year-old boy by the name of Fluty. At the time Fluty made his escape to Jackson county but was arrested there Monday. Fluty was drunk at the time. Berryman is survived by a wife and six children. Deceased is well known to many of our readers, having formerly sold goods at Sams, Estill county.

The Annual Catalogs.

The seed catalogs are now finding their way into the homes of gardeners and farmers. Most of them have glowing and highly colored covers which are intended to make the recipients believe these pictures were taken from products grown from their seed. We appreciate the seed catalogs and hope to have more of the luscious fruits and vegetables growing this summer than heretofore.

Six Pages This Week.

We are compelled to issue another six page paper to accommodate our advertisers. Advertising is the sustenance of every local paper. Hence our readers can do the next best thing to subscribing by patronizing the advertisers of the Times. They are all reliable and we are sure they will treat you right and save you money.

High Prices for Tobacco.

H. M. Bosworth, of Fayette county, sold one basket of tobacco on the Lexington market for \$350 per hundred pounds. Several other baskets were sold by Mr. Bosworth and other farmers at prices ranging from \$25 per hundred to more than \$300 per hundred.

A Call to Newspaper Work.

Editor Hiram Duley, of the Flemingsburg Times-Democrat has withdrawn from the race for the Democratic nomination for Clerk of the Fleming County Court. He has been in the printing business for forty years and for thirty-four years has been editor of the Times Democrat. He believes that an editor has a call to the editorial chair no less than a minister has to the pulpit, and he feels that he should not forsake this calling.

Subscription Price Raised.

The Hazel Green Herald has found that it must increase its subscription price from \$1.00 to \$1.50 in the face of continued increases in the cost of all kinds of printing material, paper and etc and also the high cost of living. Any local paper is worth that price, but getting the subscribers to see it that way or even paying a much smaller price is a difficult thing to do.

Wheat in Bad Condition.

The wheat crop in Central Kentucky is in bad condition. Many fields will be plowed and other crops cultivated. The late sowing looks fairly well. The early sowing was killed by the severe drouth. It is estimated that the crop will be the shortest in years.

Wilson and Marshal Elected.

The Presidential electors of Kentucky met at Frankfort Monday, and cast the vote of Kentucky for Wilson and Marshal for President and Vice President. John S. Lawrence, of Cadez, was elected without opposition to carry the vote to the President of the United States Senate.

J. B. Eaton is laid up with a severe attack of la grippe.

Baptist Meeting Closed.

The Baptist meeting in this city came abruptly to a close Thursday night on account of Elder Taylor having to go home occasioned by the sickness of his wife's mother at Pineville. Great interest was being taken in this meeting and Elder Taylor had greatly endeared himself to the people of Clay City during his brief stay with us. Every one seemed to regret that the meeting was unavoidably brought to a close. Bro. Taylor after the services was earnestly solicited to return in the Spring and hold a meeting and agreed to do so.

The "Madisonian."

Grant E. Lilly has begun the publication of the Madisonian at Richmond, Ky. If Mr. Lilly makes as good a paper of the Madisonian as he is making of the Estill Tribune in proportion to the relative size of the two towns of publication—Irvine and Richmond it will be a winner. Here's wishing you, Mr. Lilly unbounded success from your former county man and well-wisher, editor of the Times.

Judge Benton Ill.

Judge Benton was compelled to adjourn Circuit Court at Winchester yesterday on account of a severe attack of grip. The many friends of Judge Benton in Powell county hope that he may speedily recover.

Brings in Another Drove of Cattle.

Lee McPherson returned Wednesday from Lee county with another drove of cattle. These cattle were purchased several days ago but Mr. McPherson was held up on account of high water in the mountains.

The report of Dr. I. A. Shirley registrar of vital statistics for Winchester and eight surrounding precincts show that five people in that portion of Clark county killed themselves and that six other people were killed by their fellowman.

The Board of Supervisors for Powell County has made many raises and the Sheriff is busy is suing summonses to property owners to show cause why such raise should not stand.

The Ohio river along the Kentucky line has been very high and has done great damage to Kentucky cities on its banks. The waters are now receding.

Mrs. Lucy Moore, of Missouri, after several weeks stay with her father, D. R. Daniel, and other relatives of the city and county has returned home.

Ike Wiler, of Clark county, was here this week and bought several crops of tobacco paying 12 1/2 cents straight for it.

Mr. and Mrs. R. A. Kirby, of Spout Spring, were in the city today transacting business. Mr. Kirby it is to be regretted will have a public sale February 1st and move to Illinois. He is offering his most excellent farm for sale at a remarkably low figure. If not sold before the day of his sale he will offer it at public auction on that day.

McCreary Will be in the Ring.

The following is a part of a statement from Gov. McCreary indicates that he will shortly announce for United States Senator:

"I have had numerous letters from all sections of the State—letters from men whom I know to be friendly to me—and I have had many of the earnest and influential men of the party of the State to visit me at Frankfort requesting me to make the race for the nomination to the Senate, and I am now considering the matter. How long I shall consider it before making some statement of decision I do not know.

"The first visitors I had who urged me to make the race for Governor told me that I could beat O'Rear, who even then was regarded as certain to be the Republican nominee, at least 20,000. I felt that I could beat him, but I was not willing to accept the expressions of my visitors as to figures until I had canvassed the situation thoroughly for myself and it was three months before I made announcement of my decision to run. How well I ran is history. The opposition to my nomination said I was too old to make the race. When I stepped in and got the nomination the cry that went up from the Republican side was that I would be dead before the end of the campaign. I made a speech every day when we got into the thick of it and twice wore down my younger friend, Tom Smith, and even Ed McDermott got sick once during the period. Every one remembers how I beat O'Rear by 31,365 votes.

"That was a year ago last November I have been in the office of Governor for over a year; have had one session of the Legislature, at

A Match for Booe.

Lee Hampton, chief clerk under former Insurance Commissioner C. W. Bell, Republican, has been indicted for embezzlement of money belonging to the State five times. It is estimated the total shortage will exceed \$20,000.00. Hampton, Republican in the pen should be matched with Judge Booe, Democrat, both looters of State funds. The pot cannot now throw up black to the kettle.

which I succeeded in securing the establishment of six bureaus advocated in my platform; had a successful little fight with Senator-elect Ollie James for the Chairmanship of the State convention in Louisville last May; went to Baltimore as Chairman of the Kentucky delegation to the National Democratic Convention and cast the vote of that delegation on every ballot that was taken during the long and tedious period in the heat of the summer; have been working constantly in my office at Frankfort since then and I'm not dead yet. On the other hand I weigh 200 pounds, which is more than I ever weighed in my life before, and I cannot recall that I ever felt better than right now."

By a ruling of Speaker Champ Clark that the amendment was out of order; a second effort to deny liquor advertisements the privileges of the mail in dry districts was defeated. Congressman Sherley of Louisville, fought for the liquor interests.

Dr. Irvin reports the birth of a daughter to Mr. and Mrs. C. C. Daniel of the Snow creek vicinity.

Come to Our Store

And let us show you what a nice line of goods we carry. Our stock of Dry Goods, Notions, Groceries, Hardware, Clothing, Shoes and etc. is replete with

Variety, Style and Quality.

THIS COMBINED WITH OUR

Low Prices

Make it to your interest to give us a good share of your trade. We strive to please our customers because we know satisfied customers are our best assets.

CLUB RATES.

For the convenience of our subscribers, we have arranged club rates with the following papers at prices below mentioned:

The Times and	
Courier-Journal	\$1.00
Cincinnati Enquirer	1.10
Louisville Herald	90
Home and Farm	75
Indian Farmer	1.00
American Farmer	90
Southern Agriculturist	75

The automobile license went into effect in this state January 13, 1910. Up to January 1912 the total collections amounted to \$25,225 50. This was for a little over a year and a half. The total tax for the year 1912 was \$27,260 00 making a total of \$52,485 50 now in the treasury to the credit of a good roads fund. There has been no law provided for the expenditure of this fund, but it must be spent for the improvement of the roads of the state. By the time the Legislature meets next year this fund will be no less than \$120,000 00 or at least \$1,000 00 to each county in the state. This will be a nucleus for a greater fund which should be supplemented by taxation and additional license, and expended equitably among the counties of the state for the building of model roads.

There is no further doubt about the L. & N. owning and operating the L. & E. The Times has the necessary proof of this. It is also a known fact that the L. & E. is a strong competitor of the L. & N. and the two should not be allowed to make a final merger. Will the commercial bodies of Winchester and Lexington sit idly by and see these roads combine when it is so much to their interest that they should not? If these cities more interested than Clay City do this, Clay City and Powell county should see that such an imposition is not imposed upon them. The Times is willing to aid in any way possible. Let us hear from you.

The country is showing the utmost confidence in the ability and judgment of the Democrats in revising the tariff downward in accordance with the Democratic pledges and the usual business check occasioned by tariff legislation has not been noticed this year and it does not seem that there will be the slightest check to our present prosperity by reason of the democratic tariff bill. On the other hand industries are showing unusual activity in all lines, and when the bill becomes a law all business will be helped.

The thirteen electors of Kentucky met on the 13th day of the month of the 13th year of the century at Frankfort and cast the vote of the state for Wilson and Marshal. It was a little skeptical at first because the elector from the Ninth didn't show up, but his successor was speedily chosen and thus the good work went on.

In our State thousands of dollars are spent to elect Legislators every two years. The Legislature meets and spends thousands more in making bad laws and few good ones. The Court of Appeals consisting of seven men sit and are called upon to review these laws passed, and thereby annul most of the good work of the Legislature and a little of the bad work. Thus are thousands of dollars misspent in this state every other year.

In this nation it is far worse. Millions are spent in our elections and millions spent on our Congresses each year. Nearly all of the good laws that are passed in favor of the real people are set aside by four Federal Supreme Judges and the laws for the best interests of the classes and whiskey elements confirmed.

Such a rotten and shameful condition of our State and Federal governments is why the Times is in favor of the Initiative and Referendum and the recall of Judges and all other public officials. As it now is it is a rule by the Judges and not a government for the people and by the people. We would like to try the latter form of government just to see how the people would like it.

With a bull dog under one arm and a crate of eggs under the other, the industrious postman is not required to lift his cap in salutation as the fair mistress of the house comes to get her morning letters.

The laws of our land justly forbid the practice of law or medicine without first getting a diploma from a good school of law or medicine, but with farmers they are allowed to go forth at random, wearing and tearing the soil to shreds. This too in the face of the fact that all the generations to come must subsist upon the soils whether they be worn out or replenished. No man has a moral right to completely wear out a piece of land and he should not have the legal privilege.

Powell county is better than we think. The trouble is her people are slow to do things without someone to go before and show them. They prefer to get where the force of the habit of their neighbors compels them to forge forward.

If the law which prohibits the sale or giving of liquor to minors were observed, the criminals of this county would not be so many.

We prefer a good man advocating a bad thing to a bad man pledged to support a good thing.

Washington is now getting full of men eager to help their country by holding down the offices.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. Cheney & Co., Toledo, O.

CLAY CITY, KENTUCKY.

NOTES From MEADOWBROOK FARM

Study your horse.
Salt is essential for cows.

Give young pigs comfortable quarters.

One breed is always better than a hodgepodge.

It is not always the largest hen that is the best layer.

If not moldy sorghum is an excellent root forage for all stock.

In order to have good-sized sheep grow them rapidly while young.

Poorly fed sheep will not produce very good wool, nor good mutton.

Equal parts of corn and oats are hard to excel as a grain feed for sheep.

During an extra cold spell of weather, add a little corn to the sow's grain ration.

Do not attempt to winter more sheep than can be done without crowding.

By the right kind of selection even the commonest dairy herd can be greatly improved.

Growing pigs should not be crowded into close, filthy quarters, exposed to vermin and disease.

The driver more than the horse is always more to blame for the animal's being vicious—if he ever is.

Leave a horse untied when hooked to a vehicle and he will be likely to be gone when you return for him.

You will appreciate the difference between low-headed and high-headed trees when you are picking the crop.

Decaying vegetables in storage under the living rooms in the cellar are apt to promote ill health in the household.

Keep both eyes open when near the gentle bull just the same as if he were ugly, or he may take you unawares.

The best dairy cow is the one that will convert the forage raised on the farm into the greatest amount of butter fat.

A dairy thermometer comes into good play any time of year, but is especially valuable to have around for winter churning.

The supply of vegetable matter is most easily maintained in the soil by the growing of green crops and by the application of manure.

Change in the conditions of dairying is driving many men out of the work because they would rather quit than improve their methods.

Horse breeding requires more capital, is more profitable if successful, and involves larger losses if not, than any other kind of stock breeding.

Moles in a garden prove an intolerable nuisance. While they may be trapped, the only sure way is to inject bisulphate of carbon into their runs.

A free 1913 Dairy and Wall Calendar For Our Readers.

We take pleasure in announcing that any reader of this paper can secure a valuable pocket diary for 1913 by sending four 1-cent stamps for the diary and calendar, worth fully 40 cents.

Stop your bad breath with Dr. Miller's Laxative Tablets.

Steamships Run By the Sun.

SCIENCE SOON TO DISPEL DISEASE.

The radiant energy falling on the deck of a steamer crossing the ocean is sufficient, if it could be utilized, to propel the ship with greater speed than is now obtained from coal. Only one-third of the radiation is cut off by the air.

Light has a chemical energy so intense as to destroy micro-organic life. This energy in its different manifestations is a power in continuing life and curing disease. The X-ray which is really concentrated sun light, when applied to some of the less fatal chronic ailments of germ origin has proven very effective as a curative agent. This is the experience of the skilled specialists at Dr. Pierce's Invalids' Hotel and Surgical Institute in Buffalo. Although this institution was founded many years ago by Dr. R. V. Pierce as a genuine home—not a hospital—for those afflicted with chronic disease yet it has kept abreast of the times and its trained specialists have become medical authorities in their various lines.

The violet-ray treatment, another interesting proceeding, is produced by concentrating the light, rich in the violet or chemical rays from an arc light with a specially prepared carbon, upon any portion of the body that may be the seat of pain. Sufferers from neuralgia, sciatica, rheumatism, strains, sprains, also from those obscure exhausting pains (the origin of which cannot at times be accurately determined) frequently find immediate relief from a single treatment and usually with a little persistence in the use of this aid, obtain comfortable health or perfect recovery.

The incandescent light bath, consists of a cabinet in which the patient is bathed in the combined rays of many electric light globes. This treatment has produced really wonderful results in diabetes, sciatica, rheumatism, obesity, anemia, and some forms of kidney and heart trouble. It has also proven valuable in chronic bronchitis, bronchial asthma and various skin diseases. As a general hygienic measure its efficiency can scarcely be over-estimated.

The sick who have been treated at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., have much to say in regard to this wonderfully equipped Sanatorium, where all the above electrical apparatus, as well as electric water baths, Turkish baths, static electric machines, high-frequency current, and other most modern and up-to-date apparatus is used for the cure of chronic diseases. The treatment of chronic diseases that are peculiar to women have for many years been a factor in the cures effected at the Invalids' Hotel and Surgical Institute.

The physicians and surgeons employed are among the most experienced and skillful in the country, men who have made these diseases their life study, and whose highest ambition is to excel in their treatment.

How well they have succeeded may be judged from the fact that their practice embraces cases from every State and Territory of the Union as well as from foreign lands. Many thousands are annually treated, either through correspondence or at Dr. Pierce's Institution. It is an old adage that "Experience makes perfect," and the skilled specialists in this field of practice cure thousands of cases which have been abandoned as incurable by general practitioners. Hundreds are brought to the institution from far distant states and they go home in a few weeks well and strong. Quite as marvelous are the thousands of cures annually accomplished through correspondence, while the patient remains quietly at home. Others consult in person, and after being examined are provided with specially prepared medicines and return home to carry out the treatment.

In medicine there has been rapid and real progress during recent years, and Dr. Pierce has kept up with the times in that he has had the manufacture and ingredients in his well-known remedies improved in a modern laboratory by skilled chemists, the greatest care being exercised to see that the ingredients entering into his well-known medicines are of the highest quality. Prescriptions as well as the "Golden Medical Discovery" are extracted from the best variety of native medicinal roots. These are gathered with great care and at the proper season of the year, so that their medicinal properties may be most reliable.

These extracts are then made soluble in pure triple-refined glycerine and bottled. Everyone who consults the specialists whether by letter or in person receives the most careful attention.

Great care is exercised not to over-encourage those who consult the specialists of this institution that no false hopes may be raised.

Consultation by letter or in person is absolutely free—no charge whatever—so that the public when afflicted are invited to write to Dr. Pierce at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Send stamps to D. Swift & Co., Patent Lawyers, Washington, D. C.

The dairy contains 96 pages, lists and note spaces for each date in the year, states the amount of corn, wheat, oats, to acre and cotton produced in each state, a brief synopsis of the life of each President from Washington to Taft, gives the population of each state in 1800, 1900 and 1910, a synopsis of business laws, patent law, household information and etc. It would cost 25c at a book store.

For three 1-cent stamps they will send a nice wall calendar, size 10 x 11 inches. Send seven 1-cent stamps for the diary and calendar, worth fully 40 cents.

Farm For Sale.

125 acres of practically level farming land, just rolling enough to drain well. About half of this farm is of a good heavy black corn and wheat land and the rest is of a sandy loam and brings good grass and other products, and is now mostly set in blue grass. Most of this farm has been set in grass for a number of years and is in a fine shape for cultivation, and is located on the public road that leads from Irvine to Mt. Sterling and also on the south by public road. This place has on it a good dwelling of seven rooms, veranda and porch, splendid well and milk house right at the door, 1 chicken house, 1 buggy house, corn crib, 1 barn, good blacksmith shop and all other necessary outbuildings, about 8 acres in orchard, and is in about half mile to two churches, about 30 rods to good public school and 35 rods to postoffice, general store and Masonic Lodge; in about 4 miles of town and railroad. This farm is splendidly located and is surrounded by as high and respectable families as can be found in the country anywhere and will make a nice ideal home for anyone. The owner has urgent reasons for converting this farm into cash as he must take care of some Western business. Terms made easy, about 1/3 down, the balance can be run for a term of years for reasonable rate of interest. This farm is going to sell at a bargain to some one, and anyone seeking a farm of this description can call on or write to

Farm Drain Tile

Make Your Wet Land Productive.

By the use of drain tile you can turn that low, wet, useless, swampy field into the most productive spot on your farm. Good tile, properly placed, not only carries off surplus water, it admits air to the soil and makes it easy to work. It improves any soil. The increase in the value of the land is many times the cost of the tile. The first year's crop from tiled land pays for it. Any body can do the work successfully. Write for particulars or call at our plant.

"Clean Up the Bowels and Keep Them Clean"

There are many remedies to be had for constipation, but the difficulty is to procure one that acts without violence. A remedy that does not perform by force what should be accomplished by persuasion is Dr. Miles' Laxative Tablets. After using them, Mr. N. A. Waddell, 315 Washington St., Waco, Tex., says:

"Almost all my life I have been troubled with constipation, and have tried many remedies, all of which seemed to cause pain without giving much relief. I finally tried Dr. Miles' Laxative Tablets and found them excellent. Their action is pleasant and mild, and their chocolate taste makes them easy to take. I am more than glad to recommend them."

"Clean up the bowels and keep them clean," is the advice of all physicians, because they realize the danger resulting from habitual constipation. Do not delay too long, but begin proper curative measures. Dr. Miles' Laxative Tablets are a new remedy for this old complaint, and a great improvement over the cathartics you have been using in the past. They taste like candy and work like a charm. A trial will convince you.

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory after trial, return the box to your druggist and he will return your money. MILES MEDICAL CO., Elkhart, Ind.

Blood Was Wrong

All women, who suffer from the aches and pains, due to female ailments, are urged to try Cardui, the reliable, scientific, tonic remedy, for women. Cardui acts promptly, yet gently, and without bad effects, on the womanly system, relieving pain, building up strength, regulating the system, and toning up the nerves. During the past half century, thousands of ladies have written to tell of the quick curative results they obtained, from the use of this well-known medicine.

TAKE CARDUI The Woman's Tonic

Mrs. Jane Callichan suffered from womanly trouble for nearly ten years. In a letter from Whiteville, N. C., she says: "I was not able to do my own housework. My stomach was weak, and my blood was wrong. I had back-ache, and was very weak. I tried several doctors, but they did me no good. I used Cardui for 3 or 4 months, and now I am in the best health I have ever been. I can never praise Cardui enough." It is the best tonic, for women.

Whether seriously sick, or simply weak, try Cardui.
